PG is a genuine mentor with a immense market knowledge and a fine sense of prediction, making him an ideal master. He carefully designs each course to make learning a fun and more importantly, comfortable process. The fact that he is so reachable is what differentiates him from the rest. Thank you PG for being by my side and for seeing me grow, from struggle to success! 😊

I am really very very happy at the end of my theory sessions of PGs master Class. All the sessions are amazingly designed by PG. After completing PGs master class Program, one can take trade mechanically by follow rules of the program. This is very helpful to the trader who doesn't know much (deeply) about market and traps of institutions.

I proudly says "The PGs master class is India's best program" in technical analysis & PG is the best teacher. Now I can understand every movement of price in chart without any indicators.

PGsir, Thanks for joining me in PG's master class, I believe this Program will become life changer for me.

Still remember the day i called you and told you that fundamentals work better than technicals. And that i would rather be a investor than a trader. You without hesitating gave your perspective and insights on how the market works, why technicals analysis is better and why investor also need to know technicals.

While i was not totally convinced about the course as i never believed in technicals, i went ahead with the course.

But i would now say that it was one of the best d... [See More](#)

Excellent guru with very simplistic method of teaching. I doubt anyone in this world would share with his students that Mr. PG does. A big thanks to him for teaching and sharing his knowledge and experience with us. Thank you 🙏.

I'm student of PGS master class 3rd batch and I am attending his lesson sessions,PG is really good at it explaining each and every concept clearly with detailed explanation.he will not move to next step until everyone says they are ok with the topic discussed.his teaching is an eye opener for me lot of new things I learned still I am learning... after the concept delivery over in his lesson sessions he ll show the charts where I can see and match it with concept, after the lesson session he will encourage to share the charts with our markings and PG will verify and correct it if any mistake I have seen he ll reply late nights like 12am,1am... If anyone serious about trading is their career I would strongly recommend this program... Thanks PG for being supportive and your concept delivery...
